DESIGN/SKETCH DESIGN
Unless stated otherwise, the designs shown are subject to detailed site survey, investigations, and legal definition, the CDM Regulations, and the comments and / or approval of the various relevant Local Authority Officers, Statutory Undertakers, Fire Officers, Engineers and the like. They are copyright, project specific and confidential and no part is to be used or copied in any way without the express prior consent of HLM Architects.

PHOTOCOPIED/SCANNED INFORMATION
NB This drawing is based on photocopied / scanned information liable to distortion in scale.

AREA CALCULATIONS
NB The areas shown are approximate only and have been measured off preliminary drawings as the likely areas at the current state of design using the stated option from the Code of Measuring Practice, 4th edition. RICS/ISVA. These may be affected by future design development and construction tolerances, or the result of surveys for existing buildings. Take account of these factors before planning any financial or property development purpose or strategy and seek confirmation of latest areas before decision making.

3RD-PARTY INFORMATION
NB This drawing includes information provided by independent surveyors and/or consultants, to whom all queries shall be made. HLM Architects can accept no liability for its accuracy.

Drawing Notes:

- This drawing must be read in conjunction with all relevant HLM Architects' Stage 3 drawings, the landscape specification, and information provided by other consultants and disciplines.
- Discrepancies between the drawings and existing site conditions must be brought to the attention of HLM Architects for clarification prior to proceeding further.
- Design information has been developed in accordance with current British Standards, Building Regulations, and relevant codes of practice.
- Coordination with other disciplines is ongoing. The contractor is responsible for ensuring full integration of all packages during the construction phase.
- Design information considers CDM Regulations and statutory health and safety requirements relevant to Stage 3.
- Only the latest revision of this drawing should be used. It is the responsibility of the recipient to ensure they are working from the most current information.
- The design complies with the approved fire strategy and accessibility requirements to date. Final compliance will be confirmed during detailed coordination and construction.
- Any changes or proposed substitutions to specified materials must be reviewed and approved by the design team.
- This drawing forms part of the spatial design package and is not to be used for construction purposes unless noted otherwise.
